Somerset

We're campaigning for a countryside we can all enjoy

We speak up for Somerset's countryside and rural communities

We're passionate about our wonderful countryside but that doesn't mean we want to see it frozen in time.

We want quality, affordable rural housing in the right place. That means using brownfield land before losing even more green fields. We want solar panels on rooftops, not on farmland.

We speak out against inappropriate development that threatens our villages, landscapes, green spaces and dark skies.

We help local communities defend the character of their countryside.

CPRE Somerset is an independent charity, based here in Somerset. We are also part of CPRE, the Campaign to Protect Rural England. This combination of local knowledge with national influence means we really punch above our weight!. If you join us, you will have the bonus of becoming a member of both charities.

> We cannot thank you enough for your time and energy that you gave to protecting our village. You did an amazing job. We are all very proud of CPRE and for what you stand for.
>
> Local resident, Evercreech

With your support, we can achieve even more

We've been a powerful voice for the English countryside for almost a century. Help us shout even louder!

CPRE led early campaigns to bring about National Parks, National Landscapes, Green Belts, the Countryside Code and our planning system. These remain at the heart of protecting our countryside today.

Here in Somerset, we work on around 40 planning cases each year, across the whole county. We attend planning meetings and support local voices. We support sustainable development that enriches rural life but we fight against schemes that are badly-designed, out of scale and in the wrong place.

We arrange events, walks and talks to share ideas so we can all work together to help Somerset's countryside and villages to thrive.

We're making a real difference

- our small army of litter volunteers are cleaning our countryside every week!
- our grants help Parish Councils restore our historic signposts.
