

The VH is getting quotations for the major repair or replacement of the roof of the MUGA store and will be applying for a CIL grant in due course. It is not a major project - we expect it to be £5,000 approx. but there has been delay because it has been difficult to get multiple quotations for a relatively small project.

The MUGA store roof is in very poor condition and leaks badly despite a number of repairs. The condition is poor mostly because football users of the MUGA insist on climbing onto it to retrieve their footballs, causing damage.

The VH will be asking the PC to fund the project because it contains mostly MUGA users' equipment.
