Somerset, TA1 9RB

Dear Members of Bishops Lydeard Parish Council,

Subject: Purchase of a Silence Disco Kit for KCQ Youth Club

I am writing to propose the acquisition of a silence disco kit equipment with 30 headphones for our youth club. Our club has been providing a safe and enriching environment for the youth in our community, and we believe a silence disco kit will enhance our programme and attract more youth participation.

Background

The Hub Youth Club has been serving our community for several years offering a range of activities that promote social interaction, creativity, and personal development to a range of youngsters from 11 to 16 years old.

Need for Equipment

The requested equipment includes:

30 headphones

01 transmitter

02 chargers

01 connect cables laptop/tablet

Headphone

Transmitter

Headphone Chargers

Connect Cables

These items are part of a silence disco kit, which once purchased will allow us to organize disco parties for 30 youth in our community and we aim to use the equipment at least three to four times a year. We would like to organize one at this Christmas and another one at Easter next year.

Budget

The total cost for the proposed equipment is approximately £1.300. Please find attached three quotes from three different providers.

Funding Request

We are requesting a grant of £1,079 from the Parish Council to purchase the equipment from DJ Kit which gave us the cheapest quote. This investment will directly contribute to the growth and development of our youth programmes and improve our service to the community.

Conclusion

We believe that the Parish Council's support will play a crucial role in enhancing the opportunities available to our local youth. We would be grateful for the chance to discuss this proposal further and explore how we can work together to benefit our community.

Thank you for considering our request and I am look forward to your positive response.

Sincerely,

Claudio Moises
